

List of Recyclable Plastic Film

Plastic film cannot be recycled with your single stream recycling! It gets tangled in machinery and contaminates other streams of recycling causing major issues for sorting facilities. Instead, plastic film should be recycled at your local grocery store, or (for our compost customers) plastic film can now be recycled curbside in the provided 5-gallon plastic film bucket! Please make sure that all things listed as “plastic film” end up in this bucket instead of your larger single stream recycling bin.

****All film must be clean and dry, and free of food particles, receipts, and labels.**
